

# Sixth Grade Matriculation

After the typical middle school jitters subside, Learning Project students thrive in their new schools. Some will attend neighborhood public schools, many go on to other independent schools, and others, who are eligible, attend the Boston Exam Schools.

*"We recently had our daughter's parent teacher conference and almost every teacher referenced that she has received an incredibly strong elementary education. Sometimes as parents we worry if we are doing everything we can to position our children for academic and life success and I truly walked away from that parent teacher conference feeling that The Learning Project Elementary school is truly the best elementary, K-6 school, in town for our family. We know that anything our children go on to accomplish in years to come will be secondary to the amazing opportunity they had to be a part of The LP. "* - Alumni Parent

*The following is a list of schools to which our children have matriculated:*

<i>BB&amp;N</i>	<i>Mount Alvernia Academy</i>
<i>Boston College High School</i>	<i>New Mission High School</i>
